Cultural Academy for the Arts & Sciences

"Providing equal access to success under an umbrella of support."

Our School

CAAS is a small school located in the heart of East Flatbush, NY. We envision the development of the whole child by partnering with all stakeholders to provide equal access to experiences in the arts and sciences that connect to the next stage of our students' lives. Our goal for College and Career readiness is evident in all the support we provide our students.

Activities & Opportunities

Partnering with The Leadership Program, B.A.M., Opening Act and a growing list of community based organizations, CAAS offers: martial arts, audio production, performing arts, piano, mural arts, restorative justice circles, PSAL sports and culinary program. All of our programs are designed to tap into the natural talents of our students. By doing this we expand their knowledge and understanding of their talents and skills. We also graduate well rounded leaders that are indeed needed in this rapidly changing world.

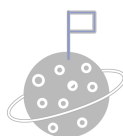

Message to Families

"The statement that one of our NYS Alternately Assessed students wrote on a mural that he created sums it up best. "Every kid comes to school to find things that interest them. This school gives students the chance to explore new possibilities." At Cultural Academy for the Arts and Sciences we have a wealth of programs, both during and after school, designed to tap into students' creativity and to provide personalized learning opportunities and supports. We endeavor to inspire them to discover who they are as they develop skills and acquire knowledge that will enable them to excel in our always evolving global

Sanatha Alexis, **Principal**

Our Mission

We are committed to providing equal access to success under an umbrella of support.

Our Vision

We envision the development of the whole child by partnering with all stakeholders to provide equal access to experiences in the arts and sciences that connect to the next stage of our students' academic, social and professional 21st century lives.
